THE ELIOT SCHOOL
CLASSES IN CRAFTS & FINE ARTS FOR ALL AGES

spring/summer 2020
**HANDS-ON WORKSHOPS**

**Easter Egg Decorating**
Sunday, Apr 5, 10am–12:30pm
Eliot Schoolhouse, 24 Eliot St., Jamaica Plain
Bring boiled eggs, we’ll supply the rest. Open house format. Best for kids ages 4 and up. Keep watch for a neighborhood egg hunt, too, at Loring-Greenough House, 12 South St., Jamaica Plain. Suggested Donation: $5

**Wee The People**
**My Night in the Planetarium**
Sunday, June 14, 1–4pm
Eliot Schoolhouse, 24 Eliot St., Jamaica Plain
Celebrate liberation from enslavement. Storytelling and crafts for all ages. Suggested Donation: $5
Join us for a puppet show. Wee The People, the social justice project for kids, have adapted Innosanto Nagara’s autobiographical picture book, *My Night in the Planetarium*, in partnership with Puppet Showplace Theatre. This story of political repression and resistance in Indonesia transforms into a giant pop-up book puppetry performance filled with visual surprises, fascinating discoveries and humanity as seen through the eyes of a curious child. Truth and humor show how art can effect social change to make the world more fair. After the show, stay and make your own pop-up stories. Best for ages 5 and up. Suggested Donation: $5

**Artists’ Talk**
**Gender-Fluid Fashion & Design**
Melissa Thyden & Britteny Monty
Thursday, Mar 26, 6:30pm
Eliot Schoolhouse, 24 Eliot St., Jamaica Plain
Gender-fluid style is undergoing culture shift. Fashion designers question who wears what, and consider how current signifiers complicate tradition. Join us for a conversation about playing with clothing codes. Part of Boston Design Week. Suggested Donation: $5

**Faculty Exhibition**
**“Shaping the Grain”**
Alison Croney Moses, Michael Gleason, Ken Lindgren, Dan Paret, Andrew Riiska
Exhibition Mar 4–29
Reception Friday, Mar 6, 6–8pm
Artists’ Talk Sunday, Mar 15, 3pm
Galatea Fine Art, 460 Harrison Ave. #B-6, Boston
These artists on our faculty all make fascinating functional and sculptural forms from wood. We are pleased to show off their work—elegant, funny, functional and artful—at Galatea Fine Art, a contemporary cooperative art gallery in Boston’s SoWa district, where twice a year we showcase Eliot School instructors and Artists in Residence.

**Celebration**
**Teen Bridge Spring Showcase**
Saturday, June 13, 2–3pm
Eliot School Annex, 253 Amory St., Jamaica Plain
Learn what Teen Bridge has been up to as participants present artwork they have created this year and speak about the program. Light refreshments will be served.

The Eliot School inspires lifelong learning in craftsmanship and creativity for all. Celebrating skills and imagination, we bridge machine tools with handwork, experimentation with tradition. “Art for all” is central to our work. We believe everyone deserves access to excellent art education and the opportunity to make things by hand.

Our classes are small and welcoming. Students—of all ages—cover a range from beginners to experienced artists and artisans. Our Scholarship Fund allows children from low-income households to take classes in our schoolhouse; preference goes to students enrolled in our School & Community Partnerships.

Our Partnership Program brings art and woodworking into Boston’s public schools and community centers. There, our instructors turn classrooms, cafeterias, teachers’ lounges and community rooms into wood shops and art rooms. Each year, more than 2,000 students in grades K–12 experience the pleasures of making things by hand, absorbing literacy and STEM skills in the process.

Our Teen Bridge Program brings together a select group of teens year-round, for multiple years, for art education, mentorship, job training and work experience. Teens spend summers as teachers’ aides in our Summer Program for Children, fellows for our annual Artist in Residence or participating in summer intensive art classes to better their skills. This season’s Artist in Residence is Carolyn Shadid Lewis.

We invite you to join us with hammer, thimble, camera or brush. Satisfy your desire to create, enjoy the pleasures of craftsmanship—and support our work inspiring “art for all.”
Woodworking

Each woodworking class incorporates beginners and experienced students, with new projects each session. Small classes allow for individual attention. As students gain experience, they build familiarity with tools and materials. Younger children start with hand tools and small projects. Continuing students undertake more complex projects, gaining appreciation for wood as a creative medium. Teens advance to shop etiquette, milling, joinery, layout and power tools. All classes emphasize safety and the process of learning by doing. We provide materials for all projects. For some classes, instructors will inform students to bring their own supplies. Some instructors allow parents to stay if they wish.

Take an existing pattern or piece of clothing and revise it to express your personal style. Expect to complete a new pattern and a piece of clothing. Two sessions each term introduce basic fashion portfolio skills. Prerequisite: Kids’ or Teen Sewing class or equivalent skills. Limit 7 students
Section 1: 9 Saturdays, 3:30–5pm (Carol Price)
1S: Apr 11–June 13 (no class Apr 25, May 23)
$310

“I liked the enthusiastic and encouraging approach of the instructor, the breadth of techniques to which she introduced us and the wide range of materials she brought to class.”
Visual Arts: Drawing, Painting & More
Our art classes emphasize the pleasure of making artwork from start to finish, exploring a variety of media, methods and techniques. Students develop skills, imagination and confidence while having fun in a noncompetitive environment. All classes encourage cooperation, curiosity and creative thinking.

Classes combine artists of all levels with new and different projects each session. Many children return for multiple semesters to create new projects, overcome challenges and gain new skills. Small classes allow for individual attention. Materials are provided unless otherwise noted.

Little Artist, Big Artist Ages 3–5 with adult CC819

School & Community Partnerships

Hands-on Learning for All

We believe all young people have the right to great art education and opportunities. Our School & Community Partnerships bring art instruction to young people where they study and play. We work to increase access for all and provide in-depth art experiences for those wanting more. We also offer training and support for teachers to achieve these goals. As the needs of our Boston communities change, so do our partnerships.

On-the-Ground Instruction

All Children Deserve Art Every Week

We are proud to teach more than 2,000 students each year throughout the city, from Kindergarten through Grade 12. At schools and community sites, we bring hands-on instruction to children who may not receive art, woodworking or tinkering classes anywhere else. Our programs ignite creativity, enjoyment and the pride of accomplishment as children make objects and art by hand. Our curriculum supports literacy and STEM and aligns with Common Core state standards. We serve a broad range of learners, including English Language Learners, students with behavioral challenges and students with disabilities.

Scholarship Fund

Eliminating Barriers to the Arts

Our Scholarship Fund eliminates financial barriers so that young people from our partner schools and community sites can take part in immersive art experiences at our schoolhouse. Students from low-income households attend our Summer Program for Children and classes during the school year free of charge.

Art Teachers Alliance

Good teaching depends on skilled, well-supported faculty. Our Art Teachers Alliance offers a professional development series open to all art teachers from the Eliot School and any other schools or organizations (no membership required). It improves skills, shares resources and builds collegiality among peers.

Wee The People

The Eliot School is pleased to partner with Wee The People, a social justice project leading kid-powered resistance with interactive story times, art and games. Wee The People’s mission is to inspire children to discover the power of their own voices, explore resistance through the arts, and support adults in starting difficult conversations with kids about difference, equity and justice. See weethepeopleboston.org for more information.

Professional Development Workshops

October–December 2020
Details: eliotschool.org

Our Art Teachers Alliance works to build skills, share resources and strengthen peer support among Eliot School art teachers and others who teach art of all kinds, including music, dance and drama, to children in schools and community settings. Each year, we present a series of Professional Development workshops around art teachers’ pressing needs. In recent years, we have focused on cultural competency, racial justice and how to support social emotional behavioral health for both teachers and students. Our Professional Development workshops have concluded for the 2018–19 school year and will pick back up in Fall 2020.

We Count! The 2020 Census

Census Week: April 1–10

The Eliot School supports the Boston Cultural Institutions Subcommittee to encourage all to participate and be counted in the US 2020 Census. The census count determines important allocations of federal funds for housing, health care, education and transit. It influences how voting districts are drawn and much more. MFA staff will meet with Teen Bridge to build community on the theme, “We are the future.” And during Census Week, we will collaborate with cultural groups throughout the city to say, “We count!”

Teen Bridge

A dedicated group of teens participate during outside-of-school time in our year-round program combining art education and exposure, mentorship, job training and work experience. We encourage these teens to develop their voice and their skills, teach them to work as art teachers’ aides and connect them with Boston-based artists and opportunities. Participants help shape the program. Recruitment takes place every fall, with new teens joining each January and continuing throughout high school.

To learn more, contact Teen Arts & Professional Development Coordinator, Charlotte Huffman: chuffman@eliotschool.org.

TEEN BRIDGE STUDENTS SAY:

“I think where I grew the most this year was getting out of my comfort zone, which was my goal, too, because I wanted to be able to talk to people without feeling shy or awkward. I also feel like I grew the most in my art because having my journal was a way to work on improving my art.”

PRINCIPALS SAY:

“Students feel motivated to express themselves in visual art and woodworking. In addition, it provides children with the chance to work on a task and see it through. I like the staff and their creativity and their ability to teach art. I appreciate seeing Eliot teachers connecting with the students and the follow-through and check-in regarding their journey and work. Keep posting the work that students are doing or have a gallery for families to stop by and see the art learning that is going on.”

Artists in Residence

Each year, a Boston-based artist engages across the Eliot School’s programs to create work around a chosen theme. Teen Bridge participants support the artist as fellows during an intensive process of collaborative design, art making and community engagement.

Carolyn Shadid Lewis, the Eliot School’s 2020 Artist in Residence, records and artistically transforms people’s personal and political stories through interviews, paintings and drawings, stop-motion animation, surround-sound and installation. She has taught digital media, video production and animation at Endicott College, Gordon College and Massachusetts College of Art & Design, and has taken part in the Women Make Movies Production Assistance Program. She exhibits her work internationally, recently at Sirius Arts Centre (Cobh, Ireland), Attleboro Arts Museum (Attleboro, MA) and The National Military Cemetery (Fort Leavenworth, KS). She has won a St. Botolph Emerging Artist Award, Massachusetts Cultural Council Fellowship and Puffin Foundation Artist Award.

2020 Residency: “InterGeneration”

What do you know of your Boston neighborhood’s history and how do your personal memories intersect with it? How are the streets, buildings, green spaces and people changing over time? What do you foresee happening to this neighborhood in 10, 20, 30 years? How will this affect youth and the elderly, two vulnerable and often voiceless populations?

InterGeneration is a series of conversations between teens and elders that will enliven memory and hope through audio recordings and hand-made, stop-motion animation. The project brings generations together through storytelling, attentive listening and collaborative creation. The word “generation” refers to different age groups, but it also refers to art making, production and invention. By animating stories of the past and expectations for the future, InterGeneration initiates creative ways of seeing our current moment. The animation, visual response and audio recordings will be shown in the fall at public forums including the Eliot School Annex and Galatea Fine Art. Check eliotschool.org in Fall 2020 for details about participating in the resulting open dialog with teens and elders.

Gift Certificates

Give a gift of creativity for birthdays, anniversaries or holidays. Gift certificates are available in any amount and may be redeemed any time during the year.
Woodworking & Furniture

Basic Woodworking: Box is the prerequisite for many of our woodworking classes. Learn fundamentals as you work a given plan through to completion using hand and power tools. Learn shop etiquette and properties of wood, interpret a plan, cut and mill stock and use basic joinery. This class prepares you for using your own wood shop, joining our Woodworking Open Shop sessions or advancing to additional classes.

Intermediate Woodworking classes reinforce basic skills and take you further. Introduce elements of your own design. Add the band saw, drill press, mortising machine and more to your repertoire while increasing your comfort with table saw, planer and jointer.

Woodworking Open Shop follows an open format. It’s like a shop away from home, with tools, mentorship and community. Students design and construct projects of their choice. Expert instructors offer guidance on design, construction and finishing, based on individual needs. Students often stay for multiple semesters, enjoying the camaraderie of the shop and progressing to more ambitious projects over time.

All classes stress safe, effective use of hand tools and machines.

Pathway to Fine Woodworking

Build your skills one step at a time.

First, establish basic skills:
• Basic Woodworking: Box
• Basic Hand Woodworking: Small Dovetail Box
• Intermediate Woodworking classes: Small Table, Hope Chest, Mantel Clock, Accented Jewelry Box

Master joinery and finishing:
• Hand Dovetail Joints
• Mortise & Tenon Joints
• Finishing for Woodworkers

Add basic turning and carving:
• Wood Turning: Bowls & Beyond
• Basic Woodcarving

Build your own projects:
• Woodworking Open Shop
• Furniture Design & Making

Some classes are offered in Fall/Winter. A variety of workshops and additional classes work well for a variety of skill levels.

Basic Woodworking: Box AC474
Learn fundamentals as you work a given plan through to completion. With a focus on six essential power tools, learn properties of wood and shop etiquette, interpret a plan, cut and mill stock and use basic machine joinery. This class qualifies students for intermediate classes and for Woodworking Open Shop. It is our gateway to more advanced woodworking. Complete attendance is required to fulfill this requirement. See our withdrawal policies online. Limit 8 students

Private Lessons
Learn one-on-one with a master teacher. Catch up on basics, practice difficult skills, master advanced techniques, work out solutions to tricky problems or finish a project. Contact us for prices and schedules.
NEW Accented Jewelry Box AW10101
Make a jewelry box using cherry and maple wood. Learning to build boxes is an essential step in your journey to build fine furniture. Whether you are planning to move on to larger projects or would just like to take home a lovely jewelry box, learn fundamentals of joinery, frame and panel construction on a small scale. **Prerequisite:** Basic Woodworking or equivalent skills. **Limit 6 students**

Section 1S: 6 Mondays, Apr 27–June 8, 6:30–9:30pm (no class May 25) (Marc Dreyfus) $350. All materials included

Carved & Printed Woodblocks AC945
Learn to make hand-printed, multicolor woodblock prints. Carefully carve images into wooden blocks, then use your blocks to print with water-based pigments and paints on Japanese printmaking papers. Start with a sample design provided by the instructor, then move on to carving your own designs. Leave class with an understanding of the tools, materials and the printmaking process, as well as a small collection of shared prints. **Limit 8 students**

Section 1M: Monday–Friday, Aug 24–28, 9am–4pm (Dan Paret) $550. Materials: $75 payable in class

Wood Turning Week: Bowls & Beyond AC760
Co-sponsored by Eastern Mass. Guild of Woodworkers
Take a full week in our wood shop and rise to a new level of skill, no matter your starting point. Turn wood into functional objects and art—bowls, platters, sculptures and more. If you wish, add surface decoration with color, burning and other techniques. All levels welcome. We encourage you to follow up with Wood Turning Week Level II later in August. **Limit 8 students**

Section 1M: Monday–Friday, Aug 3–7, 9am–4pm (Ken Lindgren) $550. Materials: $75 payable in class

Wood Turning Week Level II AC1043
Explore more advanced techniques and projects now that you are more confident and comfortable using the lathe and proper gouge and chisel control. A full week on the lathe comes with demonstrations and instruction on fundamentals of cutting, scraping and elements of design. Students work on the techniques that interest them most. **Prerequisite:** Any wood turning class or equivalent basic turning skills. **Limit 8 students**

Section 1M: Monday–Friday, Aug 17–21, 9am–4pm (Rick Angus) $550. Materials: $75 payable in class

Woodworking Workshops

Basic Woodcarving AW388
Co-sponsored by Eastern Mass. Guild of Woodworkers
Learn basics of handheld carving, including shaping, detailing and whittling. Understand basic approaches to full round and relief modes, paving the way to create decorative elements for furniture and small sculptural objects. Choose a small project to finish in the workshop or at home. **Limit 8 students**

Section 1W: 2 Sundays, Mar 22 & 29, 9:30am–1:30pm (Peter Thibeault) $130. Materials: $30 payable in class

Handmade Long Bow AW845
Make an American version of a traditional English long bow from a laminated blank of flat and quarter-sawn ash. Start with a review of shop safety and operation of basic power tools, wood selection and project layout. Make your own bowstring on a string maker's jig. Leave the second class with enough information to finish the final shaping process at home before test-firing your bow at a certified archery range in Milton, MA. All levels welcome. **Limit 10 students**

Section 1S: 2 Sundays, May 3 & 17, 8am–2pm, plus range date Sunday, May 31, 1–3pm (Julio Fuentes) $195. Materials: $30 payable in class

Wood Turning: Bowls & Beyond AW714
Co-sponsored by Eastern Mass. Guild of Woodworkers
Use the lathe to make wooden bowls, platters, abstract sculptures and more. Start with pieces of tree limbs and trunks, make them round and take off from there. Beginners learn basic lathe techniques. Experienced students advance to the next level at their own pace. Wood is provided in class; advanced turners may bring their own. No physical strength or previous woodworking experience required. **Limit 8 students**

Section 2W: 2 Wednesdays, Mar 18 & 25, 9am–3pm (Ken Lindgren)

Section 3S: 2 Sundays, Apr 19 & 26, 9am–3pm (Ken Lindgren)

Section 4S: 2 Wednesdays, May 13 & 20, 9am–3pm (Ken Lindgren)

Section 5S: 2 Sundays, June 7 & 14, 9am–3pm (Ken Lindgren) $230. Materials: $35 payable in class
**Turned Carved Mallet** AW1044

There’s a special pleasure in using tools you have made yourself. Make your own functional mallet, a useful tool for your woodworking projects, starting with a solid or glued-up blank. Carve the handle and turn the body while learning or reviewing safety and basic spindle techniques at the lathe. Limit 8 students

*Section 1S: Sunday, Apr 5, 10am–1pm (Dyllan Nguyen)*  
$55. Materials: $20 payable in class

**Turned Bud Vase with Glass Sleeve** AW1046

Turn a beautiful bud vase from a single piece of wood; it will include a glass tube for holding flowers in water. This project uses basic spindle-turning techniques, including boring a hole to fit the glass tube. Apply an oil finish or paint the vase with a faux metal patina. All levels welcome. Limit 8 students

*Section 1S: Saturday, Apr 25, 10am–4pm (Rick Angus)*  
$120. Materials: $20 payable in class

**Wood Turning: Shallow Plates** AW1080

Start with pieces of tree limbs and trunks, make them round and from there create a shallow plate, using different skills than for making a deep bowl or vessel. Beginners learn basic lathe techniques while experienced students advance to the next level at their own pace. Wood will be provided in class; advanced turners may bring their own. Limit 8 students

*Section 1S: Wednesday, May 27, 9am–3pm (Ken Lindgren)*  
$150. Materials: $20 payable in class

**NEW Turned Handle for Multi-Bit Screwdriver** AW1047

There’s a special pleasure in using tools you have made yourself. Learn basic techniques of spindle turning making a custom handle for a multi-bit screwdriver from a beautiful and interesting piece of wood. Use a billet of wood and a spindle roughing gouge. Design a unique shape and finish to a luster with linseed oil. All levels welcome. Limit 8 students.

*Section 1M: Sunday, July 26, 10am–4pm (Rick Angus)*  
$120. Materials: $25 payable in class

**Barley Twist Turn** AW992

A barley twist is a helical ornamental detail used for decoration throughout history. Its impressive, elegant spiral form can be used to support a table or bannister or incorporated into architectural details and other structures. Learn the principles and process of laying out a barley twist, then carve it on the lathe. Discuss the history of this decorative form and where it can be applied when designing. Limit 8 students

*Section 1S: 2 Wednesdays, June 3 & 10, 9:30am–1:30pm (Jesse Shaw)*  
$195. Materials: $20 payable in class

**Wood Turning: Pens** AW938

Make an elegant, unique writing implement. Choose a block of wood for its color and grain, drill a hole for the ink cartridge, then learn how to mount the long, thin block on the lathe and turn it round. Assemble your components into a personalized pen. Limit 8 students

*Section 1S: Sunday, June 28, 9am–2pm (Ken Lindgren)*  
$95. Materials: $15–$40 payable in class, depending on material selection

**Wood Turning: One-on-One** AW819

Work one-on-one with a master turner. Make a large bowl or another special project—or simply advance your skills. Contact us to make a schedule that works for you. (Ken Lindgren)  
$65 per hour. Wood is available for purchase in class.

**Introduction to Laser Cutting & Design** AW996

Learn the physical process of laser cutting, safe operating procedures, software control, basic design tools and how to produce high quality laser projects. Practice your new skills by designing, cutting and etching your own custom-designed box. This class is required as part of the certification process to operate the laser cutter independently at The Makery. This class takes place at The Makery, 2 Sewall Ave., Brookline. Limit 8 students

*Section 1S: Thursday, TBD, 5:30–9:30pm*  
$85. All materials included  
To find out about spring dates, check online at eliotschool.org, or contact cfiks@eliotschool.org

**Introduction to CNC Milling & Carving** AW997

Learn this powerful technology for carving and milling wood, metal, plastic and other materials. Topics include Stepcraft 840 components, machine operation and control, setting up a job with clamps and jigs, designing for the CNC using Vcarve Pro, setting layers and tool paths and selecting appropriate tools for the job. Practice design skills, job set-up and machine operation by designing and making a nameplate or sign. This class takes place at The Makery, 2 Sewall Ave., Brookline. Limit 8 students.

*Section 1S: Thursday, TBD, 5:30–9:30pm*  
$85. All materials included  
To find out about spring dates, check online at eliotschool.org, or contact cfiks@eliotschool.org
Upholstery & Restoration

Basic Upholstery is a short, structured class. Take a simple wooden frame and go home with a fresh new footstool. Learn webbing, springing, padding, covering and machine stitching. You purchase fabric after class begins; we supply the rest.

Upholstery and Furniture Finishing & Restoration follow an open workshop format. Work on your own furniture at your own pace, and provide your own supplies with the instructor’s advice. Instructors provide guidance based on individual student needs. Students often stay for multiple semesters, enjoying the camaraderie of the shop and progressing to more ambitious projects over time.

In Upholstery, learn the art and craft of fine upholstery: stripping, webbing, spring tie-off, covering, cushions, machine sewing and some repairs.

In Furniture Finishing & Restoration, learn to strip, prepare surfaces and apply stains and final touches. Repair and reinforcement are addressed as needed.

Gilding is offered once each year in fall.

We are seeking a teacher for Seat Weaving, Caning & Rushing. If you’d like to teach this or would like to recommend someone, please contact Claudia Fiks: cfiks@eliotschool.org.

All classes emphasize safe, effective use of tools.

Basic Upholstery AC607

Given a simple wooden frame, learn webbing, springing, padding, covering and machine stitching—and go home with a fresh new footstool. Limit 8 students

Section 1: 6 Wednesdays, 6:30–9:30pm (Kathleen Gaskin)

“The workshop was transformational for me as an artist and my work. I can’t stop thinking about it.”
Upholstery Intensive AC711
Take a week off from your summer routine and spend it in our upholstery workshop—just like our regular Upholstery class but for an intensive five days. This class follows an open workshop format, incorporating students of all levels. Work at your own pace, on your own piece of furniture, with the teacher as your guide. Leave your work out in the shop and start each morning without having to set up. If you want to complete something in one week, a small chair or ottoman is your best choice. Leave yourself time for fabric shopping after Day 1. Take more than one week if you have a large or complex piece. Limit 8 students

Section 1M: Monday–Friday, Aug 3–7, 9am–4pm (Seymour Beckford)
Section 2M: Monday–Friday, Aug 10–14, 9am–4pm (Seymour Beckford)

Sewing & Fashion
Basic Sewing is the prerequisite for intermediate and open workshop classes. Learn fundamentals as you work on given plans through to completion.

Intermediate classes follow an open format. Students design and make projects of their choice, while instructors offer guidance based on individual needs. We provide sewing machines, but we have no sewing storage for students; prepare to transport your projects home after each class. Please, no large drapes.

Each of our teachers has a different personality and different approach. As you get to know us, find the teachers who suit you best. Feel free to take any class more than once, increasing your skills and progressing to more ambitious projects each time.

Fashion Roadmap

First, establish basic sewing skills:
• Basic Sewing
• Intermediate Sewing

Explore fundamentals of design, patterns and clothing construction:
• Pattern Making I
• Beginning Clothing Design
• Alterations & Repairs
• Upcycling Clothes
• Clothing Projects

Take your skills to the next level:
• Pattern Making Beyond Basics
• Clothing Projects Beyond Basics
• Intermediate Clothing Projects
• Custom Dress Form & Draping
• Open Sew

A variety of workshops and additional short courses work well for a variety of skill levels. Some classes are offered in Fall/Winter. A variety of workshops and additional classes work well for a variety of skill levels.
Basic Sewing  AC535
Learn how to operate a sewing machine, read and understand patterns. Learn basic sewing terms, sewing methods and tools of the trade. Then apply your newly found skills by sewing a pillow, apron or simple drawstring pants. Completion qualifies students for intermediate classes. Limit 6 students
Section 1:  6 Mondays, 6:30–9pm (Deborah West)
1S: Apr 13–May 18
Section 2:  6 Wednesdays, 10am–12:30pm (Carol Price)
2S: Apr 15–May 20
Section 3:  6 Thursdays, 6:30–9pm (Carol Price)
3S: Apr 16–May 21
$245. Materials list online

Intermediate Sewing  AC716
Adjust a pattern for your size; choose and cut fabric expertly. Go beyond basics with zippers and get started with a garment of your choice. Take this class as many times as you like to solidify your essential sewing skills and complete a series of projects. Prerequisite: Basic Sewing or equivalent skills. Limit 6 students
Section 1:  3 Wednesdays, 10am–12:30pm (Carol Price)
1S: May 27–June 10
$130. Materials list online
Section 2:  5 Thursdays, 6:30–9pm (Deborah West)
2S: May 28–July 2
Section 3:  5 Mondays, 6:30–9pm (Deborah West)
3S: June 1–29
$220. Materials list online

Open Sew  AC1002
This open-format class is a place to work on your own projects with the teacher’s help and student camaraderie. All types of work are welcome: hand sewing, machine sewing, zippers and fine sewing techniques. Learn about great new developments in sewing tools, fabrics and notions. Start a new project or bring a project to completion. Prerequisite: Intermediate Sewing or equivalent skills. Limit 6 students
Section 1:  9 Tuesdays, 10am–12:30pm (Carol Price)
1S: Apr 7–June 2
$340. Materials list online

Pattern Making  AC789
Learn the basics of flat pattern making to bring your clothing designs to life. Customize the fit of a set of slopers, a collection of base patterns for a top, skirt and pants. From there, focus on one pattern to sew into a finished garment or develop multiple custom patterns to be constructed later. While this class will focus primarily on pattern making skills rather than pattern fitting, there will be discussions on how to approach fit changes during the design process. If you have taken Beginning Clothing Design or Pattern Making, you may take this class and work at your own pace. Prerequisite: Basic Sewing or equivalent experience and familiarity with sewing clothing from patterns. Limit 6 students
Section 1M: Monday–Friday, Aug 17–24, 9am–4pm (Taylor McVay)
$520. Materials list online

NEW Pattern Making Beyond Basics  AC789
Now that you know the basics, build a custom-fit basic sloper, the basis of all patterns, following the figure’s natural lines and dimensions. Learn to alter your sloper to create unique patterns and explore basic techniques for grading (adjusting for size). This class requires patience with math; you will start to develop some technical skills and move from novice to “in the know.” Limit 6 students
Section 1:  6 Wednesdays, 6:30–8:30pm (Theona White)
1S: Apr 1–May 6
$230. Materials list online

NEW Clothing Projects Beyond Basics  AC919
Learn fundamentals of garment construction. Sewing a garment of your choice, measure, cut fabric, use interfacing and stabilizers, choose seam finishes and employ other essential sewing skills. Work with patterns appropriate for your skill level and leave with a finished garment. This is a perfect follow-up to Beginning Clothing Design. As with all classes, students are welcome to take this class more than once. Prerequisite: Basic Sewing. Limit 6 students
Section 1:  8 Tuesdays, 6:30–8:30pm (Melissa Thyden)
1S: Apr 7–May 26
$260. Materials list online

Alterations & Repairs AC1049
Learn a multitude of ways to alter and repair clothes you love: patching techniques for knits and woven fabric; zipper replacement, including trouser flies; taking in garments through tucks and darts; and altering tailored garments with vents and hems. Learn some fitting techniques and how to translate fitting issues into a realized alteration. Classes will include demonstrations of common challenges. Bring in a personal garment to fit and alter. Prerequisite: Basic Sewing or equivalent skills. Limit 6 students
Section 1: 6 Wednesdays, 6:30–9pm (Theona White)
$230. Materials list online

Upcycling Clothes AC1050
Explore creative re-use and the art of upcycling within your own wardrobe. Learn multiple ways to hack existing garments. Alter a garment for a perfect fit. Using an existing garment as a base, completely change the design using only the materials you have. Or use fabric from an old garment to make a new one. Bring the garment you wish to upcycle to the first class, then create a custom plan of action for the remaining sessions. Prerequisite: Basic Sewing or equivalent skills. Limit 6 students
Section 1: 3 Sundays, 10am–12:30pm (Theona White)
$190. Materials list online

Fiber Arts

Contemporary Art Quilt AC821
Design and make a small contemporary art quilt using fabric scraps and larger pieces. Learn basic quilting techniques and then expand into areas where the quilt becomes art, exploring what makes good design, shape and color composition, and finally touching on surface elements and dimensionality. Finish with new ideas, techniques and inspiration to continue your own work. All levels; new and returning students welcome. Limit 6 students
Section 1: 5 Fridays, 10am–1pm (Beverly Arsem, Brenda Jones)
$250. Materials list online

SAORI Weaving: Weave, Sew & Wear AC1036
SAORI is a contemporary improvisational weaving art from Japan, influenced by Zen principles. Instead of following a predesigned pattern, create your own pattern as you weave. There are no mistakes, just your own unique designs. All levels of weaving and sewing are welcome. Learn how to set up warp in a group. Weave material on a floor loom, then make a shrug, vest, tunic or poncho. Celebrate individual inner creativity and freedom of expression without rules or restrictions through weaving. End with an informal fashion show to showcase your creations and embrace the process. Limit 8 students
Section 1M: Monday–Friday, Aug 3–7, 9am–4pm (Mihoko Wakabayashi)
$550. Materials: $45 payable in class; additional materials listed online

Summer Straw Hats AC1110
Make a hat that is right for you, blocking straw bodies (the type used by professional milliners) and working with straw millinery braid. Combine these techniques and materials with some familiar fabric sewing ideas to make new combinations and create lively summer hats. All levels welcome. Limit 8 students
Section 1M: Monday–Friday, Aug 3–7, 8am–4pm (Denise Wallace-Springer)
$530. Materials list online

NEW Felt Lab AC1079
Come out of your comfort zone in this experimental approach through guided exercises with wool, silk, paper, inks and threads. Understand how wool behaves during the process of felting, how different breeds affect shrinkage and texture, and how to prepare silk by painting and dyeing it before felting it with wool. Create textual elements and add simple embroidery stitches with threads, horse hair and fishing line. Start and finish a hanging or 3-dimensional object. Limit 8 students
Section 1M: Monday–Friday, Aug 17–21, 9am–4pm (Eva Camacho)
$550. Materials: $25 payable in class; additional materials listed online

“Everyone seemed to make something they wanted to make. It was a fun group and not too big.”
Dyed Shibori Scarves

Shibori is the Japanese art of creating patterns by binding, stitching, folding and twisting fabric during the dyeing process. In this beginning-level workshop, learn some basic traditional techniques using commonly available commercial dyes. Experiment on a series of silk and cotton scarves and go home with the skills to dye larger pieces at home. **Limit 8 students**

**Section 1S:** 2 Fridays, June 5 & 12, 10am–3pm (Kristina Goransson)
$170. Materials: $20 payable in class

Basic Quilting

For ages, people have combined leftover fabrics into creative designs for quilts, adding a variety of assemblages embellished with embroidery. Complete a small quilt for décor, or a 10” square that you can incorporate into a larger quilt at home. **Prerequisite: Basic Sewing or equivalent skills.** **Limit 8 students**

**Section 1S:** Sunday, June 28, 10am–3pm (Brenda Jones)
$95. Materials: $25 payable in class

SAORI Weaving: Weave a Scarf through the Freestyle Weaving Method

Set up a warp and weave a scarf on a SAORI loom. SAORI weaving is a contemporary improvisational method originated in Japan. Instead of following patterns or a draft, it focuses on individual inner creativity and freedom of expression without rules or restrictions. End with an informal fashion show to showcase your creations and process. **Limit 8 students**

**Section 1S:** Sunday, May 17, 10am–4pm (Mihoko Wakabayashi)
$125. Materials: $20 payable in class

Fiber arts workshops

Wicker Basketry I

Wicker, or pliable willow twigs, lends itself to weaving and is a traditional material for utilitarian and decorative baskets. Explore basic basket structures, various weaving materials and commonly used tools. Learn to construct base, sides and rim, and go home with a small, handsome basket and the skills to make more. **Limit 8 students**

**Section 1M:** Monday–Friday, Aug 31–Sept 4, 10am–4pm (Malika Green)
$550. Materials: $50 payable in class; additional materials listed online

Wicker Basketry II

Dive deeper into basket weaving. Learn more advanced wicker weaving techniques, how to finish baskets with new rim patterns and how to create baskets using the split-spoke base. Students taking this class more than once continue to build their skills. **Prerequisite: Wicker Basketry I or equivalent skills. Limit 8 students**

**Section 1S:** 3 Sundays, June 7–28, 2–5pm (no class June 14) (William Krier)
$135. Materials: $20 payable in class

Fiber Jewelry

Create inventive jewelry combining traditional techniques with experimental materials including wire, fiber and objects of your choice. Design pieces, then review and incorporate techniques such as felting, needlework, wire knitting and crochet, finishes and assembly. Pull it all together to finish the project. **Prerequisite: Basic crochet and knitting skills. Limit 10 students**

**Section 1S:** 3 Fridays, May 8–22, 10am–1pm (Jodi Colella)
$60. Materials: $20 payable in class
NEW Weaving with a Twist AW1096
Create a piece of artwork combining weaving with handmade paper, cellophane, shells, wood bark, natural fibers, driftwood and some exotic yarn. The final product can be a wall hanging, a book cover or other functional piece. Limit 8 students
Section 1S: Sunday, June 14, 11am–3pm (Bayda Asbridge)
$95. Materials: $35 payable in class, including looms that students will keep.

Basic Embroidery AW932
Learn the history and uses of spot samplers, then make your own as you practice basic stitches including seed, running, back, stem, split, chain, lazy daisy, cross, satin and French knots. Explore various techniques for transferring designs and securing threads on the back of your work. Limit 8 students
Section 1S: Sunday, Mar 29, 10am–2pm (Jennifer Turpin)
Section 2S: Sunday, May 17, 1–4pm (TBA)
$65. Materials list online

Advanced Embroidery AW1051
Expand your embroidery repertoire by learning more advanced and layered stitches and explore uses of decorative and imaginative stitches. Prerequisite: Familiarity with basic embroidery stitches, such as cross, chain, split, stem and back. Limit 8 students
Section 1S: Sunday, Apr 5, 2–6pm (TBA)
$65. Materials list online

Embroidery Portraits AW1095
Combine basic embroidery with traditional drawing techniques like contour, gesture and hatching to create portrait drawings with thread. Transfer an image to fabric and select the right materials for your project. Limit 8 students
Section 1S: 2 Sundays, Apr 26 & May 3, 1–4pm (Jennifer Turpin)
$65. Materials list online

Nuno Felting AW610
Nuno felting combines wool fibers with a silk backing to elegant effect. Use this technique to create a single cloth, scarf or wall hanging. This fun, labor-intensive process yields a gorgeous, one-of-a-kind piece of art to show or to wear. Limit 8 students
Section 1S: Friday, Apr 17, 10am–3pm (Kristina Goransson)
$95. Materials: $25 payable in class

Felted Forms AC883
Felt is perfect for creating large or small 3-dimensional objects that are lightweight, soft, textured and structural. Create hollow, organic forms starting with fluffy white and colored wool, using water, soap, resists and arm strength. Prepare to have fun while getting wet. Appropriate for beginner or experienced felters, sculptors and anyone interested in learning how to create sculptures using wet felting techniques. Limit 8 students
Section 1S: 2 Fridays, May 1 & 8, 10am–3pm (Kristina Goransson)
$170. Materials: $25 payable in class

Slow Stitching + Wool AW1061
For students with no felting experience: Make a piece of felt from merino wool and then embellish it by stitching on small pieces of fabric. In the process, learn to distress fabrics to make them look older and more vintage. Create one 12" x 12" decorative piece. Limit 8 students
Section 1S: Wednesday, May 6, 10am–4pm (Eva Camacho)
$130. Materials: $20 payable in class. Additional materials listed online

Felting Wool & Paper AW1060
For students with no felting experience: Make a piece of felt from merino wool and then combine with mulberry paper, creating a unique, textured 12” x 12” piece. If you like this technique, consider expanding your experience with our 1-week Felt Lab Summer Intensive, page 18. This class meets at the Eliot School Annex, 253 Amory St., Jamaica Plain. Limit 8 students
Section 1S: Sunday, May 31, 10am–4pm (Eva Camacho)
$130. Materials: $20 payable in class. Additional materials listed online

Drawing & Painting
Our beginners’ classes are designed for those who haven’t drawn or painted in a while or want to get started. Students learn or review fundamentals and practice with a variety of basic tools and methods. Additional classes move students to the next level to sharpen skills and explore new challenges. Some classes include at least one session with a nude model. Some focus on combining specific media or techniques. Most are open to all levels, welcoming beginners as well as experienced artists.

Each teacher offers a different artistic style and teaching approach; check faculty links on our website. As you get to know us, find the teachers who suit you best. Feel free to take any class more than once, increasing your skills and progressing to more ambitious work over time.

“I love the Eliot School as a community. The fellow students are a great bunch. Many of us come to the class year after year.”
Beginning Drawing AC725
For people who haven’t drawn in a while or want to get started. Learn fundamentals and gain confidence as you draw with a variety of media and approaches. This class meets at the Eliot School Annex, 253 Amory St., Jamaica Plain. Limit 10 students

Section 1: 4 Thursdays, 6:30–9pm (Eli Portman)
1S: May 7–June 4 (no class May 28)
$140. Materials list online

Drawing Beyond Basics AC770
Build on your foundational drawing skills. Practice drawing from both observation and expression. This class meets at the Eliot School Annex, 253 Amory St., Jamaica Plain. Limit 10 students

Section 1: 4 Thursdays, 6:30–9pm (Eli Portman)
1S: June 11–July 9 (no class July 2)
$140. Materials list online

Drawing for Pleasure AC592
Stretch yourself as you experience the pleasure of drawing. Expand from charcoal into additional media and color, and merge observation with expression. Includes three sessions with a live model. For both beginning and intermediate-level artists. Limit 10 students

Section 1: 8 Thursdays, 7–9:30pm (Robert Siegelman)
1S: Apr 2–May 21
$375. Materials list online

Drawing without Straight Lines AC1009
Push your traditional notions of drawing and increase your observational and technical skills, emphasizing the development of dimension and mass to create compelling imagery. Practice looking in new ways, understanding perspective and mark-making. Work from still life, natural forms and the figure, and investigate abstraction using a variety of media including graphite, ink, colored pencil, charcoal and conte crayon. This is a beginner-level class, but all levels are welcome to sharpen and expand your skills. This class meets at the Eliot School Annex, 253 Amory St., Jamaica Plain. Limit 8 students

Section 1: 6 Tuesdays, 10am–12pm (Jeanne Gugino)
1S: Apr 14–May 19
$225. Materials list online

Drawing for Comics & Cartoons AC727
Hone your drawing skills and advance your personal style. With tools and tricks used by cartoonists and illustrators, create memorable characters: humorous, heroic and anything in between. Set a scene, create drama and deliver a punchline in a single image or sequentially. Get the most out of your pencil sketches, then finish them off with ink and markers. This class meets at the Eliot School Annex, 253 Amory St., Jamaica Plain. All levels welcome. Limit 8 students

Section 1: 8 Wednesdays, 6:30–9:30pm (Jerel Dye)
1S: June 10–July 29
$295. Materials list online

Graphic Narrative AC727
Explore the boundaries of sequential art, creating original stories for comic strips, comic books, graphic novels and other forms of graphic narrative. Learn to use your personal style to its best effect. Emphasis will be placed on the way we communicate with sequential image narratives, not on how to draw characters. Explore the grammar, iconography, symbolism and pictograms used by masters of the medium, and move through the entire process of sequential art storytelling from inception to print. We recommend you take Drawing for Comics & Cartoons first, although it is not required. Limit 8 students

Section 1: 8 Wednesdays, 6:30–9:30pm (Jerel Dye)
1S: June 10–July 29
$295. Materials list online

Drawing with Colored Pencils AC899
Explore the richness and vibrancy of this often-overlooked medium. Gain fluidity and ease as you learn about linear strokes, layering, color mixing, value relationships and more. Basic drawing skills are recommended, but not required. All levels welcome. This class meets at the Eliot School Annex, 253 Amory St., Jamaica Plain. Limit 6 students

Section 1: 8 Fridays, 9:30am–12pm (Cyrus Whittier)
1S: Apr 17–June 5
$285. Materials list online

“I would not have missed a second of this course.”
Visual Arts Roadmap

Drawing is the foundation for painting, comics and illustration—and an important basis for creation in fine craft and mixed media. Forget the myth that one must be born with good drawing skills. As with anything, drawing is learned and improved with practice. Start with the basics, then progress to other classes with confidence.

First, establish basic drawing skills:
• Beginning Drawing
• Figure Drawing Intensive
• Figure Drawing Drop-In

Strengthen your drawing and design skills:
• Drawing for Pleasure
• Drawing without Straight Lines

Explore paint and other media:
• Watercolor Painting
• Drawing with Colored Pencils
• Drawing & Painting with Pastel
• Oil Painting
• Gouache Painting
• Mixed-Media Painting
• Browse our Mixed Media offerings…

Take advanced classes when you’re ready:
• Drawing for Comics & Cartoons
• Graphic Narrative

At any point, get some feedback on your work:
• Portfolio Review Session

Some classes are offered in Fall/Winter. A variety of workshops and additional classes work well for a variety of skill levels.

Drawing & Painting with Pastel AC1094
Build rich pastel surfaces with hatching, blending, layers and underpainting. Subject matter includes still life, landscape and possibly portraits. This class meets at the Eliot School Annex, 253 Amory St., Jamaica Plain. Limit 6 students

Section 1: 3 Tuesdays, 1–3pm (Jeanne Gugino)
1S: May 26–June 9
$110. Materials list online

Yupo Painting AW932
Yupo, a synthetic paper made from polypropylene resin, opens many exciting possibilities for water-based media. Colors flow, swirl and bleed on its surface, creating unique effects when the water evaporates. Once the initial image is dry, you may rework areas, remove color and apply monoprinting techniques. Go beyond basics, making a series of images in class. Limit 8 students

Section 1: 4 Thursdays, 6:30–9:30pm (Ginny Zanger)
1W: Mar 4–26 (snow day make-up Apr 1)
$180. Materials list online

Oil Painting AC938
Through a series of alla prima (single session) painting classes, create works of art that are structurally sound in color, composition and technique. With a focus on observation and representation, begin in the studio with still lifes. Spend some sessions working outdoors or from your own photographs, weather depending. Improve at your own pace with one-on-one instruction within a group. Limit 10 students

Section 1: 6 Mondays, 6:30–9:30pm (Paula Lazar)
1S: Mar 23–May 4 (no class Apr 20)
$275. Materials list online

Watercolor Painting AC387
Working from still life, practice gesture and composition, realistic representation and abstract design. Section 1 adds experimentation, spraying, splattering and pouring. Section 2 focuses on how to understand and mix colors, control paint and water, choose paper and brushes. Emphasis is given to accurate color mixing and controlled paint application, achieving a feel for the medium to achieve a range of effects. Section 1 meets at the Eliot School Annex, 253 Amory St., Jamaica Plain. Limit 8 students

Section 1: 6 Tuesdays, 1–3pm (Jeanne Gugino)
1S: Apr 14–May 19
$230. Materials list online

Elsa Dorfman: Me and My Camera
Elsa Dorfman is a beloved Cambridge photographer known for her large-scale commissioned Polaroid portraits and portraits of family and friends. Focusing on the rich autobiographic thread that runs through her photography, this exhibition features a selection of 20” x 24” Polaroid self-portraits that she made almost every year from 1980 until recently, as well as early black-and-white photographs from her landmark 1974 photobook, Elsa’s Housebook, which celebrates the close circle of friends, including the poet Allen Ginsberg, who regularly came to the photographer’s home. The photographs reveal the disarming informality of Dorfman’s approach, as well as her warm spirit and the joy she takes in her medium.

Another Crossing: Artists Revisit the Mayflower Voyage
On the 400th anniversary of the Mayflower crossing, ten artists from the United States and Europe examine this pivotal, complex event in world history. Using exceptional craft, they address social realities behind material culture, examining the Mayflower crossing through contemporary eyes. Developed by Fuller Craft Museum in collaboration with Plymouth College of Art and The Box (previously referred to as the Plymouth History Centre in Plymouth, England).

Exhibition May 2–Sept 20

Toy Mayflower Boat Building • Adult & Child Drop-In Ages 5–12
Build a toy boat from scratch, using wood, recycled materials and other supplies, reflecting on the Mayflower’s structure and adding contemporary gadgets, including a small device that will make your boat sail on water.

Section 1S: Sunday, May 31. Drop in any time, 10am–3pm.
$10 per person. Children must be accompanied by an adult.

“Our instructor was great with building confidence, explaining safety, and assisting while helping us do new things ourselves (rather than doing things for us).”

Other Crafts

Pysanky: Wax Resist Ukrainian Easter Eggs AC926
Pysanky, a traditional Ukrainian egg-decorating technique, uses layers of wax and colored dye to achieve beautiful, complex designs. In time for Easter, learn techniques of color layering, localized application and the use of different tool sizes to achieve various results. At the end, remove the wax to reveal the finished egg. Feel free to take this workshop multiple times over the years to accumulate practice and refine your skills.
